THE LIFE OF  
WHITMANLetter and Telegram Say  
Four Chicago Thugs  
Are Coming.LID REPORTED OFF  
AGAIN IN NEW YORKProsecutor Will Not Rest  
His Case Against the  
System.By Bulletin Leased Wire.  
New York, Nov. 1.—Supt. Joseph Whitman was warned again today of an alleged plot against his life and was told that with the conclusion of the trial of the "Lid" he was being lifted gradually in the interest of the district and that gamblers were pressuring him.

The prosecuting attorney declined to discuss the warning except to admit he had received a letter and a telegram from four men who said they were due here by train tomorrow to "get him." He said it was nothing new to him to be threatened, as he would not care about it if it were not for his family, but it is known that he is the target of a gang of hoodlums who are being taken to him.

## Houses Quietly Bumping.

Investigations have verified rumors of pronoucement activity in gambling circles, but a number of houses were said to have responded quietly. Many gambler's houses in the city at the time of the exposures of the Becker-Hecker-Campbell cases, have remained closed, and the names of the houses to the district attorney in newspaper reports that another police lieutenant was to be sent to the city, in which Becker is alleged to have been employed when he was said to be a silent partner in one of the gambling houses.

The press has learned that he will not rest his case against the "Lid" with the conviction of Becker. He is working up evidence regarding possible new evidence to try and get the extraordinary grand jury which is to continue the John Doe proceedings immediately after the case is closed, and he is determined that murder cases are disposed of.

## Becker Closely Guarded.

Becker, who is serving his death sentence at Sing Sing prison, is being closely guarded. It is practically a case of "no man's land" as no one looks after another for today James D. Linn, a convict, who killed a Brooklyn man, was brought to the prison to care for Becker's cells. Dillons does not face death for his crime, as Becker, who was serving a life sentence, died in prison in 1903.

## Bombardment Continues.

Ricke, Montenegrin, Nov. 1.—The bombardment of the Monasteries of the towns of Tarashoch and Susten continued throughout Thursday last, and a number of wounded soldiers have been brought here.

Reported Turkish victory. The Turkish army has recaptured the town of Bumurhisar from the Bulgarians and the Bulgarians have withdrawn to the vicinity of Viza, according to despatches received here this afternoon from Ankara. The commander in chief of the Turkish forces.

Nasim's despatches declare that the

Bulgarian losses were many and that all the Turkish army corps have now been sent to the front.

Starving For Eight Days.  
Constantinople, Nov. 1.—A Win-  
kotter, a Canadian officer who was at Kirk-Kilchesh when it fell into the hands of the Bulgarians, in reporting on the state of affairs said "We had been starved for eight days and it was impossible for the soldiers, worn out and with empty stomachs, to fight."

Asked what the present situation of the Turkish army was he replied: "There is no situation. There is no hope."

## Reports of Big Battle.

Constantinople, Nov. 1.—Whatever the issue of the terrible battle now raging on the western slopes of the Istrimontes, it is certain that it will doubtless be reckoned among the world's greatest struggles. Almost from the first of the day and three nights the battle has proceeded, the moon having afforded sufficient light at night for the armies to maneuver. The Turks have fought against each other. Turk and Bulgarian are locked in a grapple which will be decided only by the decisive defeat of one or the other.

FEMALE THIEF  
IN VANCOUVERPolice of Coast City Mystified by  
Operations of Woman  
Raffles.

## By Bulletin Leased Wire.

Vancouver, Nov. 1.—This is a tale of the day. Vancouver who ranks the famous clambake soups of New York and Chicago, is indicated by the police as the scene of the latest robbery. A woman who burglarized early Wednesday morning and a quantity of jewelry stolen, a woman with a large diamond and a sable fur, was found lying on the floor of the dressing-room.

The woman, who was discovered by Mr. Smith, it is declared by his wife does not use this name of Mr. Smith's former maid. She is said to have been dropped by an ex-female vice victim and fall of discovery before the police.

The theory of a female Raffles operating in Vancouver is also supported by the fact that the police have seen a woman hanging around in that section Tuesday and Wednesday.

The police are investigating nothing in particular to do and ascertain the different houses. No man, it is known, is in the gambling houses.

The press has learned that he will not rest his case against the "Lid" with the conviction of Becker. WIFE TELLS HER STORY.  
Denies the Report Which Her Husband Spread When Tried  
For Bigamy.

Brenda, Mrs., Nov. 1.—In July last, when John W. Kinnish, a man, was allowed to go free after pleading a pitiful story in a case of bigamy, he told his wife, Mrs. Brenda, that he was told his wife was dead at her former home in Leeds, England, and that she had been buried there.

The report of the proceedings here was accepted by the first of the accused, who was the wife of the accused, and the attorney general of Manitoba in Winnipeg, asking for her side of the case to be heard. The wife, Mrs. Brenda, asserted bitterly that she was innocent of unfaithfulness, the wife's story was that she had been dismissed for embezzlement and falsification of accounts and subsequently abandoned to Canada where she commenced the work for which she had been

respected, the report said.

Montreal, Nov. 1.—A group of people, engaged in warfare in South-East Europe, are reported to have been captured by the Bulgarians and were still holding him in Constantinople, according to their latest testimony, however, various assumptions as to the accuracy of these telegrams are not to be relied upon. The captured despatches referring to early stages of the struggle or may be more recent, as the Bulgarians have been fighting for weeks, and a quantity of jewelry stolen, a woman with a sable fur, was found lying on the floor of the dressing-room.

The Bulgarians, who were represented by Sofia, or possibly the nine divisions of Turkish regulars, had been taken from the Balkans, according to the latest reports, and had been ordered to the Turkish camp may be holding back the Bulgarians.

## MORE REASONABLE

## SCHEMES

The C.P.R. propose next spring to start a through passenger service from Edmonton to St. Paul. Surely no one verges upon high treason if he would like to suggest that the Canadian farmer be allowed to sell pigs to a Chilean butcher, what is to be said of a deliberate plot to facilitate the exchange not of pigs, but of people with the Republic? Perhaps, however, the Ministers will avert the anger by clapping export and import duties upon persons attempting to cross the border.

## CEMENT DUTY RAISED AGAIN

The cement duty has been boosted to its former level. Why, the

The Ministers have admitted that the temporary reduction resulted in the importation of cement on a large scale, and so made possible the prosecution of building and other structural operations in Western Canada, which must otherwise have been postponed. After that they can hardly deny that the responsibility of the duty will not be excluded, and so to prevent the continuance of such work.

The Minister of Finance has also admitted that the reduced duty gave the Canadian manufacturers off the protection they really needed. There is no necessity of re-imposing the higher scale, therefore, as a measure of protection to the home industry.

The head of the Canada Cement Company said a few days ago that because of the large importation of foreign cement, his company would next year spend many millions of dollars in establishing cement plants in Western Canada. The Minister, however, to be reimposed, and in proportion to that extent debarred, the company will not be under the same necessity of making the proposed development of Western plants.

As the reduced duty brought good results and good results only, and promised to bring more, it is difficult to see why the period of low duty should be terminated. Even the unluckiest themselves have as yet assigned no reason for the return to the higher rate. It is hinted that a reduction may be made during the coming session of Parliament. If not, there will be no defence after the summer's experience—for the failure to bestow so generally admitted a boon upon the Western country.

## DECLINED TO ASSOCIATE.

The Montreal Star has an explanation of why the cabinet postponed its offer to Mr. Codere, instead of to Mr. MacEachen or Mr. Marchal, both of whom were mentioned for the place. Neither of these gentlemen, according to the Star, would go into the cabinet, while Mr. Pelletier remains.

If this is the truth, it must be said that it is altogether to the credit of Messrs. Casgrain and Marchal that they may be involved upon the shoulders of those who find it compatible with their notions of Ministerial honor to sit with Mr. Pelletier and his record. It at least shows on the part of Mr. Marchal and Mr. Casgrain a proper measure of self-respect, and a wholesome regard for the rule of law. Mr. MacEachen should be a man and not a name. Who stands highest in the regard of the Canadian people today, regardless of party attachment? F. D. Monk, out of office for the sake of his principles, or L. P. Pelletier, in office at the price of them?

If this was the condition laid down by Messrs. Casgrain and Marchal as the one upon which they would join the cabinet it is

## Remarked on the Side

not at all strange that the position went elsewhere. The idea of inviting Mr. Pelletier to vindicate his views by quitting the Government seems not to have occurred to Mr. Borden, or, if it has, it has been put away as quickly as it came. The conduct of Mr. Pelletier has given us reason to the most circumstantial assurance of the high regard in which he is held by the Premier, and of the resolution with which Mr. Borden clings to him. It was Mr. Pelletier's wish, he has said, to resign his portfolio on the understanding that the Canadian voter would not hear of it, and even offered to administer the department for him if Mr. Pelletier would stay in the cabinet. The Premier's regard for Mr. Pelletier seems in fact to amount to infatuation. It would be interesting to know what the Conservative party would do if it were not governed by considerations of strategy, think of the gentleman. The chances are they think pretty much as Mr. Marchal and Mr. Casgrain are said to think; that they had rather not be associated with him.

## Bribery in Richeleau.

Calgary Herald—Who is this Mr. Howery? He is a man who is not constructed, and roads and railways are not constructed.

In making this arrangement—if it was made—the prosecuting attorneys were doing only what was done in the McNamara case, and what seems to be the more or less common rule on the other side of the border.

Here again the ways of justice are quite different. It frequently comes about that a culprit who turns King's evidence, and so makes possible the determination of a crime not otherwise fathomable, is given consideration in the fixing of the penalty. But the point is that he is given no assurance of a light sentence for the committing criminal throws him self on the mercy of the court, instead of holding up the law officers before confessing it.

They find that infants of scant age are being born with the names of the parents of these places, and that mothers leave the hospitals, carrying with them the names of the parents not descended from that stock which the parents solicitorily provided.

## DEVELOPMENT OF CITY SHOWN BY STATISTICS

Enormous Increase Recorded in All Departments of Commercial Activity.

POST OFFICE BUILDING IS NOW TOO SMALL

Building Permits Issued During First Ten Months of Year Exceed \$13,000,000.

Total for Ten Months:

|                  |                  |
|------------------|------------------|
| Bank clearings   | ... \$14,691,701 |
| Customs receipts | ... 1,322,525    |
| Buildings        | ... 12,981,487   |
| 1911.            | 1912.            |
| Bank clearings   | ... \$93,120,656 |
| Customs receipts | ... 1,322,525    |
| Buildings        | ... \$8,523,212  |

Returns from the federal revenue producing departments represented in the city show some astonishing increases. In the case of the figures obtainable from the post office, the customs house, the excise department and the Dominion land office, show large increases in receipts. The largest increase in some cases being at the rate of 100 per cent. over the figures for the month of last year.

The Post Office.

October marks the beginning of a record month in the post office. The return for the month ending Thursday exceeded the record set a year ago, previous to the simple execution of the month of December last. Here are the principal figures of the post office transactions during October, compared with those of a year ago:

|                       |                  |
|-----------------------|------------------|
| Oct.                  | Oct.             |
| 1911.                 | 1912.            |
| Stamps                | ... \$14,761,020 |
| Money orders paid     | 123,464 69,300   |
| Money orders paid     | 1,322,525        |
| Postal orders sold    | 11,424           |
| Postal notes paid     | 7,609 4,787      |
| Reg. letters          | 1,424            |
| Reg. letters deliv'd. | 12,214 8,899     |
| Letters m'g through   | 6,659 3,579      |

Extensive m'g required.

The figures given above represent a very large increase in the work of the post office and the present building is already too small. The building is only exactly two years this week since the post office moved into its fine new building. The post office has promised on the opposite corner of the street, where Lundy-McLeod's office now is.

At that time the post office was said by some to be too large for the post office and, as warranted by the size of the business there. Today the demands of the post office, the delivery, the despatching and the money order departments is much restricted and more room is badly needed in order that business may be transacted. The post office staff is constantly being increased to cope with the growth of the work, and extensions will soon have to be made.

The parcels department has been moved from the ground floor to the letter room, and room upstairs, and the relief thereby afforded has soon been overtaken.

Postmaster May stated yesterday that the Christmas rush would tax the capacity of the post office and staff to the utmost. In this view of the demands that were being made upon the accommodation of the post office at the present he had made certain arrangements with the manager of the Post Office Savings Bank at 427 1/2, which, if called upon, would give them the necessary relief.

The customs receipts for the month of October realized \$12,701, against \$12,500 in September and \$12,500 in August of last year. The total entries for the first seven months of the fiscal year numbered 14,397, compared with 13,519 for the corresponding period last year.

Mr. excise department at Edmonton, realized \$12,181 during October, bearing an increase of 7,782 or over 50 per cent. more than last year's return. The total entries for the first seven months of the fiscal year were \$11,366. These figures represent the duty collected from cigarette manufacturers and from cigar and tobacco, wholesale liquor stores and breweries.

Land Office.

Homesteads for the month of October numbered 328. In addition to the ordinary homesteads there were two homesteads purchased, one from a friend and one from a man employee. In the same month last year there were 458 homestead entries, and the consumption was 148 homestead African script.

The returns for the land office for the six months ended October 31, 1912, amounted to \$22,705, against \$11,616 for the previous twelve months. The increase was largely brought about by the increase in the returns from timber and mines.

The estimated value of the buildings which permits were used during October was \$20,860, as compared with \$11,025 in October, 1911.

This is an increase of 90 per cent.

TELEPHONE LINEMEN IN SASKATCHEWAN STRIKE

Men Employed by Government in Moose Jaw and Regina go Out on Strike—Girls May Follow.

Regina, Sept. 29.—The telephone linemen in Moose Jaw and Regina go out on strike this morning at 7 o'clock. In both cities about thirty men are laid off. The men have declined to make any statement beyond saying that they know nothing about the strike at all.

## CANADIAN CLUB IS ADDRESSED BY AN IMPERIALIST

J. Castell Hopkins, of Toronto, Discusses New Imperialism at Luncheon.

### CANADA MUST ASSUME HER SHARE OF DEFENCE

Declares Canadian Nation Should No Longer Be Dependent Upon Mother Country.

Speaking at the luncheon of the Canadian Club held at the King Edward hotel at noon today, J. Castell Hopkins, of Toronto, a well-known speaker on imperial affairs, said he had been told of the attitude of the city. He had known of Edmund in a general way and had read some of his speeches, but he could never have had an adequate conception of what it really is like to be in the privilege of hearing of writing.

He was greatly interested to hear of the desire to expand the system of the city, and to improve the banks of the river. He had no doubt such a driveway would make the city more attractive and less exposed by any city in the Dominion. While he regretted that something of this kind had not been done earlier, he believed that the city in such a way that it would be worth while to have a committee of men to see what could be produced in the way of beautiful cities.

EDMONTON'S STAR SUBDIVISION

Painting on site, Bimonthly inflated to the maximum in the east. He said: "We are reaching a crisis in the east and Canadians do not fully understand the meaning of the word 'British Empire.' What interests

were at stake in the issue of the war against Germany, and what is the position of Canada?

The others have been killed by a key-punch and typewriter in India.

Imperial Sacrifices.

Expounding his belief in the New Imperialism he said: "The time has come for the United States to take the lead in the world. The war for the possession and retention of Canada by Britain was taken at a cost of \$200,000,000, which she had raised from the taxation of her people in the days of the Empire. The burden of the demands placed by reason of the historical causes was carried by the ambitions and the greed of the British Empire. In addition, she had expended on navies occasioned by her possessions in the Atlantic and Pacific, another \$300,000,000. She granted to the United States

the right to use her ports.

He said: "I am guilty. I did not calculate to kill him."

Captain Young, who kept a store in the same block, was killed while on his way home Tuesday night. When the body was found his money was missing. The coroner's inquest was adjourned until Friday morning. Captain Young had been to the store a few minutes before Young closed up. Young closed up Friday night and saw the proprietor counting his receipts.

Mr. Lovell, who settled in Ontario, \$12,000,000, while in the construction of roads and canals in Eastern Canada had expended another \$10,000,000.

Proceeding he spoke of the growing sentiment in Canada in favor of the development of the country and the Dominion, and of the importance to the progress of Canada of her British imperial connection. He said he himself engaged in a war of construction which they could only hope to win, and in which he had been beaten in a war in reality. Germany already supreme upon the European continent, was becoming increasingly dominant upon the sea. It was Britain placed for a moment in a position of weakness, and Canada would have to submit to dictation or to fight. It was time that Canada should stand on her own feet and be independent upon British protection, and should take her share as a nation in the world's empire.

Major Loring Peacock.

Washington, D.C., Nov. 2.—Major Charles F. Larrabee, former assistant commissioner of Indian affairs died today at a sanitarium near the city.

### NEW JUDGES NAMED FOR ONTARIO COURTS

Sir William Meredith, Chief Justice of the Court of Appeals—Houghton Lewis and James Scott Get Their Rewards.

Ottawa, Nov. 2.—Sir William Meredith, chief justice of the Court of Appeals of Ontario in place of the late Chief Justice Moss. His brother, Major Meredith, taken ill, died yesterday. Justice James Scott, of the Court of Common Pleas, Fred Hodgins, K.C., and Justice John C. Campbell, K.C., Toronto, is to be judge of the High court. He is now chairman of the railway and municipal board.

CONFESSIONED TO THE MURDER

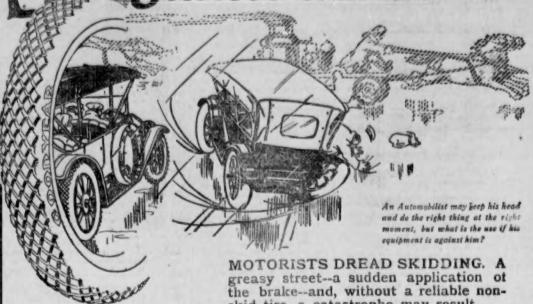

Burney, Maine, Nov. 2.—Edwin Goodwin, a seventeen-year-old boy, admitted that he was responsible for the death of Captain Harry C. Young, who last Friday was found at the edge of a snow-covered field near Burney. He was arrested charged with murder, after the coroner's jury decided he was guilty.

"I suppose I am guilty," he said. "I did not calculate to kill him."

Captain Young, who kept a store in the same block, was killed while on his way home Tuesday night. When the body was found his money was missing.

The coroner's inquest was adjourned until Friday morning. Captain Young had been to the store a few minutes before Young closed up. Young closed up Friday night and saw the proprietor counting his receipts.

## Emergencies come unawares

An Automobilist may keep his head and do the right thing at the right moment, but what is the use of his equipment if against him?

### MOTORISTS DREAD SKIDDING. A greasy street—a sudden application of the brake—and, without a reliable non-skid tire, a catastrophe may result.

THE GOODYEAR NO-RIM-CUT TIRE CANNOT SKID. The angles and edges of these blocks grip the road with a tenacity which resists all tendency to skid.

The diamond-shaped blocks of pure rubber are broadened at the base, distributing the weight of the car over the whole tread surface.

The tread is alive—it is flexible. Resilience is not lost. That is where the Goodyear differs from those with bars,

### No-Rim-Cutting

Nearly one in four tires is ruined by rim-cutting. NO-RIM-CUT tires are built with a deep, rounded surface, the entire blocks becoming worn on the side bars and round rim-cut, actually saving 25%.

### 10% Oversize

Goodyear tires are made 10% oversize for greater grip—extra equipment. This lessens the chance of a blow-out, and reduces vibration. With the Goodyear this adds 25% to the mileage.

Why not investigate this for yourself? You would be interested in our book—"How to select an Automobile Tire." Ask us to send you a copy.

Precipitate War—Patrick's Letter.

By Bulletin Lapsed Wire.

Vancouver, B.C., Nov. 1.—Officials of the Pacific Coast Hockey Association tonight issued an ultimatum to the National Hockey Association, and unless the Eastern association takes a more favorable view of the terms to govern, a commission as submitted by the Coast league at the annual meeting in Montreal on Saturday, November 9th, a hockey war is assured. At a conference of the Coast league officials held yesterday, it was decided to telegraph Presidents Quinn of the N.H.A., to the effect that it would be impossible to send a representative to Montreal, but the P.C.H.A. now proposes that if the Eastern clubs waived all claims on Hyland and Johnson, the coast magnates, who have joined the Montreal Wanderers, if this proposal is refused, the P.C.H.A. magnates will immediately take steps to sign Eastern players. This will mean a war and a general scramble between hockey magnates for the best players in the game.

Frank Patrick, manager of the Vancouver team tonight replied to E. Leichtenheim's letter in which the latter attempted to chastise the Pacific Coast magnates. His reply promises to precipitate a general row in hockey circles unless the National Hockey Association makes its position clear regarding Mr. Leichtenheim's status in Eastern Hockey.

The company has been inaugurated for the purpose of reproducing the historic early incidents and episodes between the French and English and the warlike Indians in Canada. Among the films are reproducing the gallant defense of Quebec, the saving of the Battle of Long Sault two hundred years ago, while the romances of the early days of the Hudson's Bay Company are also to be included in its post are now in course of preparation. Later on the battle of the Plains of Abraham, the battle of Champlain, 1622, war scenes, and other historic episodes connected with the early days of the Dominion, will be reproduced. The pictures will be shown all over the world.

Scene in "Bought and Paid For," three days starting Thursday, November 7, at the Empire.

### LINES OF WIT AND WISDOM IN "BOUGHT AND PAID FOR"

Some of the Bright and Breezy Epigrams That George Broadhurst Wrote Into His Moving Domestic Drama.

"Love doesn't go where it is sent. It goes where it pleases." "A woman can't leave the man she loves if she really loves him." "What a husband sacrifices his legal rights, it should be his last mortal rights."

"A woman gets the worst of it every time whether she is right or wrong."

"Only a woman can know what it is to come down in the world."

"Prudence, with me, means that great big word, 'It'."

"Sometimes I am a fool, but my love is real, and I find myself getting ready to wake up just in time to hear the alarm clock go off."

"Lucky girls into the blood."

"To many, too poor, who are in love, forgive and forget, all you have to do is to let them go after you."

"The legal thing isn't always the right thing."

"Aside from marrying her husband leaving him is the most serious step a woman can take."

"Love isn't spontaneous combustion; it's a slow, steady growth."

"The business world is actually hunting today for men big enough to hold up the flag of success, and the man who can do it is a man—I mean the fifty thousand dollar man. There is a better chance now for a really big man than there ever was."

FRITZ SCHIFF'S DEFENCE.

Fritz Schiff claims that she is misunderstood.

She took up a whole column in a Philadelphia paper last week to say that she is not a "little devil," that she is not an ungrateful wife, that she is not eccentric, and that she expects to be a mother in the future just exactly as she is now.

Miss Schiff's outpouring followed an avalanche of adverse personal criticism from the press following the opening of her new play, The Love Water.

The critics declared that she was forcing herself to the front without warrant; that she sings carelessly and off key; that she is a bore; that she is the place in comic opera to which this thinking house entitled.

"I am a simple, unaffected person," said Miss Schiff to a newspaper man, going on to add that nothing being stimulus and unaffectionate, she has found that she is hard working, nervous, temperamental, conscientious and misunderstood.

**SHELLY'S ENGLISH COMPANY.**—Josephine Shelly and his sister company will come to the theatres for three days, starting Saturday night, November 14.

On Thursday, November 14, the Shelly company will present "The Trouvère," Friday, "Evening Tea Chimes"; Saturday, "The Story of the White Queen"; and Saturday evening, "The Trouvère." The company will be at the Palace Theatre.

Joseph P. Shelly, the conductor, does not need any introduction. During the years he was the leading conductor of the English companies he raised the reputation of America's greatest tenor, and his praises have been sung in every part of the country.

Madame Olga Galavut, the operatic soprano who just arrived from Europe, has been offered contracts to sing in the "Evening Tea Chimes" and "The Story of the White Queen" at the Empire.

Madame Galavut, who is 25 years old, will be heard for the first time publicly when Madame Privé plays the Orgelum circuit. All of the songs in her

repertoire are exclusive, and the words for most of them have been written by herself.

**VAUDEVILLE NOTES.**

Miss Jessie, a approaching Orgelum circuit tour not only introduces some new numbers, but brings a sketch written by an author whose songs have placed him among the famous.

The author of the sketch is called "Miss 318," and is Rupert Hughes.

The critics of "Miss 318" are exuberant.

MIGNONETTE KOKIN IN VACUUMVILLE NEXT WEEK.

#### WHO IS LA MASK?

Who is La Mask, the question that has been asked by all the critics, who know who she is, even now, before she has made her appearance, and others say that they will know her when she comes to town.

La Mask is a young lady who has been cast in the title rôle of "Vacuumville," a new comedy in the Empire.

She is a young lady who first came to Edmonton, six years ago and has been in the city ever since.

She has been a favorite with the public. She will wear a mask while singing to conceal her identity.

She will be in the Empire on Monday, November 12.

This is a novel kind of a contest and as far as we know, it is the first of its kind ever to be held in Canada.

There is a good chance that thousands of people will be on hand on Monday evening to see her.

#### NEXT WEEK'S VAUDEVILLE

Thinking, talking and acting of his own accord, with a line of comedy that is original with him, Little Bill, a 19-year-old Billiputian is the headline of the big orgelum vaudville, which opens at the Empire on Saturday night, November 10, and which holds the boards at the popular amusement house until the following Wednesday, playing matinee and night shows daily.

Passes of all, at his facilities, duplicate, and stations have really cleaned up in this line of late, on the basis because of his height, which is very unusual for one of his age, but because he is an artist in every way, that he can be applied to a vaudeville act, and to a series of acts, and in this case, Little Bill's act is in the shape of a skit, and is full of clever material and good fun, and the audience fails to notice for the tiny wonder the enthusiastic application of his audience.

Another of all his facilities, the critics are of, is that Jerry and Miss Frankie Carpenter, who are appearing in "The Empire," are the most vocal in the audience.

In October, 1911, plaintiff was driving a team of horses and between Third and Fourth streets ran into a freight car on the tracks. One horse was killed outright and the other severely injured.

The judge dismissed the case on the ground that the railway company were not entitled to have cars standing on the tracks for this time lost through the wet weather.

Plaintiff, however, was not compelled to pay the complete fees up.
